SUMMARY

IT Systems Manager with 10 years of experience designing and implementing enterprise solutions for high-growth tech companies. Expertise in ERP systems, CRM platforms, IPaaS tools, and home-grown business applications. Proven track record in leading cross-functional teams, optimizing business processes, and supporting companies through critical growth phases (e.g. IPO readiness and M&A). Adept at bridging the gap between technical capabilities and business needs to drive efficiency and scalability.

PROFESSIONAL EXPERIENCE

FINANCE APPLICATIONS MANAGER (promoted from Senior Product Manager 2023)

Chicago, IL

Reddit

2021 – Present

- Designed and implemented finance applications with Sales & Finance, Accounts Receivable, and Functional Accounting teams to optimize Reddit's Quoting, Billing, Commissions, Collections, Treasury, Forecasting, and Crypto processes to accelerate financial close and scale product offerings.
- Developed an order management system integrating our CRM, Ads Platform, and ERP system, reducing month-end close from 12 days to 3 during rapid growth at Reddit (\$200M to \$2.2B+ annual revenue)
- Spearheaded IPaaS tooling adoption, creating 20+ integrations to streamline Sales, Finance, and HR processes eliminating manual tasks, savings thousands of hours of work annually and implementing Agentic AI capabilities
- Developed a subledger accounting tool to automate GL entries and reporting for Reddit's Direct to Consumer Businesses (iOS, Google Play Store, Stripe, and PayPal transactions related to subscriptions, awards, and NFTs) allowing product teams to scale offerings
- Led multiple RFPs to identify software solutions, establishing criteria for vendor selection for Treasury Management, Cash Application, AR Automation, and Professional Services support.
- Created a data pipeline framework from NetSuite to Google Big Query for Analytics, Finance and Commissions teams, ensuring data availability and accuracy.
- Contributed to designing Reddit's change control process for SOX compliance, maintaining auditability and separation of duties.

SENIOR CONSULTANT

Chicago, IL

Deloitte Digital

2017-2021

- Product owner at Meta for a custom IT application modeling and forecasting data center costs. Led front-end (React JS) and back-end (Python, PHP) development through agile sprints and stakeholder workshops with Finance Directors, Technical Program Managers, and Sourcing Managers
- Designed automated ASC 606 compliant Revenue Recognition scenarios for a U.S. RPA solution provider, collaborating with Sales, Order Management, Fulfillment, and Finance teams.
- Implemented a CRM and Order Management system for a \$3B+ global warehousing client, customizing modules for order entry, fulfillment, inventory management and returns on NetSuite.
- Consulted at Cloudflare pre-IPO to scale procurement and order management systems, Implemented Dell Boomi to integrate and streamline the order management process, selected and configured a subscription billing tool, and developed a cash application tool to improve DSO.
- 'Lead to Order,' 'Order to Cash,' and Revenue Recognition lead for five full-cycle ERP and CRM implementations.

CONSULTANT

Chicago, IL

Baker Tilly

2016-2017

- Implemented ERP and Manufacturing Execution systems for automotive suppliers to reflect the business requirements gathered for: EDI, Material Resource Planning, Shop Floor Production, Purchasing and Cost Accounting
